TECH STACK & PROGRAMS

Programming Languages
Python · TypeScript / JavaScript · SQL

Web Development
React · Next.js · Node.js · HTML/CSS · Tailwind CSS

Machine Learning & Data Science
PyTorch · scikit-learn · Hugging Face Transformers · pandas · NumPy

Databases
PostgreSQL · Neo4j · MongoDB · Redis

Tools & Infrastructure
Git · Docker · Slurm · Jira / Confluence

PROFILE SUMMARY

Software developer nearing completion of an **M.Sc. in Computational Science**, with hands-on experience building **full-stack web applications for clients** and an **academic focus on machine learning**, particularly computer vision and explainable AI.

My background in **business administration and entrepreneurship** gives me an understanding of how business needs, priorities, and constraints translate into technical decisions — and why the most sophisticated solution isn't always the right one.

PROFESSIONAL BACKGROUND

Since 08/2022 — **Freelance Web Developer (project-based, part-time alongside studies)** — Berlin (GER) / Hybrid
Clients: BIT - Beam Institute of Technology, UdK Berlin, Fly365

Selected Projects:

Booking Web Application (2025)
Designed, built and deployed a production booking web application (Next.js, Redis, PayPal, Contentful): multi-step booking flow, email automation, CMS blog, hosting and deployment.

Graph Database & API Development (2022)
Extended a Neo4j graph database and API for a research initiative (*ARS*): search module, similarity-based data validation, API interoperability layer, automated import pipeline.

03/2023 – 12/2024 — **Founding Team Member · Business & Strategy** — Berlin (GER) / Hybrid
AIOS (AI & Computer Vision) backed by K.I.E.Z. and the EXIST grant

Worked as part of a three-person founding team on AIOS, an AI-powered software for autonomous systems such as drones and robotic platforms.

- Developed business strategy, financial planning, pricing models and go-to-market concepts
- Co-developed funding applications and pitch materials, translating technical concepts into language accessible to external stakeholders
- Represented the startup at fairs and founder events across Germany
- Contributed to securing funding (K.I.E.Z., EXIST)

10/2022 – 04/2024 — **Co-Trainer – IT Career Change Program (part-time)** — Remote
Zukunftsmotor GmbH (Education)

- Co-led a one-year IT System Administration training program for 15 career changers, covering networking, server and data management, programming, cloud technologies and cybersecurity
- Taught Python, supported hands-on technical exercises and provided individual guidance and career preparation
- Program participants achieved strong certification results (CCNA, Azure) and an 80%+ job placement rate

01/2021 – 01/2022 — **Assistant Teacher – Full Stack Web Development** — Remote
Digital Career Institute (DCI) (Education)

- Supported a one-year full-stack web development program (MERN stack) for 17 career changers, assisting with practical exercises and individual technical questions
- Prepared and delivered full-day lessons on web development fundamentals
- Mediated conflicts between participants and the lead instructor

QUALIFICATIONS & INTERESTS

Language Skills
German (Native) · English (C1 / CAE) · Italian (B2)

Social Engagement & other activities
- Tech Mentoring Program @Netlight (2025 – 2026)
- Tutor for course *Basics of Programming* and *Algorithms & Datastructures* at university (2021 – 2022)
- Board Member – Talent Management @AIESEC Mannheim (2013 – 2014)

Interests
- Sport: Marathon preparation (2021), Mammutmarsch - 100km in 24h (2019)
- Travel: Asia (01/2025-07/2025)

** Further references and certificates available upon request*

Berlin, 11/2026

09/2019 – 03/2020 **HR Manager** Berlin (GER)
charly.media & charly.education (Media & EdTech)

- Led all HR operations and managed two team members within a three-person HR department
- Developed and implemented employee satisfaction initiatives, including feedback guidelines and training programs

01/2018 – 08/2019 **HR Manager** Berlin (GER)
BRAINEFFECT · Whitewall GmbH (Food & Nutrition)

- Led all HR functions, reporting directly to the CEO
- Established operational processes and policies from scratch, including strategic frameworks such as OKRs and the DISC model
- Increased headcount by 100% (from 20 to 40) during a 12-month period with employee turnover remaining below 10%

01/2016 – 03/2017 **Internships in Corporate Finance Consulting, Project & Business Dev. and HR** (GER & IT)

MACHINE LEARNING & RESEARCH PROJECTS

Master's Thesis (ongoing) · Fraunhofer HHI & Leibniz-ATB
Computer Vision · Object Detection · XAI
Explainable AI for object detection: Investigating which visual concepts influence YOLOv8 detections under domain shift using concept-based explainability methods.

Jaguar Re-Identification · Kaggle Challenge
Computer Vision · Metric Learning · XAI
Re-ID of individual jaguars from camera-trap images (EVA-02, triplet loss; 0.88 private / 0.91 public Kaggle score). Led data curation and interpretability analysis; showed the models exploit spurious background cues.

Idiomaticity Detection · SemEval 2022, Task 2
NLP · Transformers · PyTorch
Multilingual idiomaticity detection: fine-tuned mBERT reached 0.90 macro-F1 (EN), well above lexical baselines.

ACADEMIC BACKGROUND

Since 10/2020	**University of Potsdam** Computational Science (B. Sc. & M. Sc.) *Expected graduation: 2026*	Berlin (GER)
04/2020 – 09/2020	**Full Stack Developer in Training** WBS Coding School & online-courses on codecademy	Berlin (GER) 1.000+ hours
09/2012 – 09/2015	**University of Mannheim/ Nagoya University of Commerce & Business** Business Administration (B. Sc.)	Mannheim (GER)/ Nagoya (JP) Grade: 1.8
07/2006 – 07/2011	**Deutschsprachiges Realgymnasium (A-Levels)** Natural sciences & technology department	Bruneck (IT) 96/100
